

Favregaard - 770 sows with weaners up to 30 kg

FIBERCOMBI

ANIMAL HEALTH AND WELFARE

We were positively surprised by the effect of FiberCombi with the piglets, which had diarrhoea.

We were surprised in a positive way, that we could reduce the consumption of drying products, because FiberCombi has a much better drying effect.

The third very positive thing about FiberCombi is, that it comes in 20 kg bags, which makes it easier to lift the bags for our girl in the farrowing section.

This has made Destek an easy choice

We have 770 sows with a production of weaners up to 30 kg. We use FiberCombi from Destek ApS in our farrowing section.

Our experiences with FiberCombi

We started to use FiberCombi in July 2015 and were positively surprised how effective FiberCombi dried the floor of the pen and this way had a positive influence on the piglets, which had diarrhoea.

The other thing that surprised us in a positive way was, that we could reduce the consumption of drying products, because FiberCombi has a much better drying effect.

The third very positive thing about FiberCombi is, that it comes in 20 kg bags, which makes it easier to lift the bags for our girl in the farrowing section.

Application

We apply FiberCombi just before farrowing, where we spread it in the whole pen – this ensures that the piglets lie and suckle in a dry environment and I think that it decreases the heat loss and this way reduces the risk of diarrhoea.

Often FiberCombi lasts until castration, where we apply more if necessary.

When we have a litter of piglets with diarrhoea, we use FiberCombi in the WHOLE pen and use only FiberCombi for drying – it works very well and keeps the pen dry for a long time, so the piglets recover faster from the diarrhoea.

Customer service

We chose to deal with Destek ApS again, because we were very satisfied with their product FiberCombi, that we bought and there was - and still is a good communication with the salesman, who saw what was of interest for us back then and still does, such as price and time of delivery.

Regards,
I/S Favregaard
