

Løgager multiplier production – 300 Landrace sows

FIBERCOMBI
ANIMAL HEALTH AND WELFARE

The product excels by having a really good dry out effect. This way the lying area is kept dry and hygienic, which is beneficial for the piglets.

It is much better for the pigs than wood shavings that we used before.

We would like to recommend FiberCombi to other colleagues

We conduct LØGAGER multiplier production with 300 landrace sows and sell a little more than 3.000 gilts every year. Today we use FiberCombi from Destek ApS in our farrowing section. We also apply Basic hygiene powder, also from Destek ApS.

Our experiences with FiberCombi

The product excels by having a really good dry out effect. This way the lying area is kept dry and hygienic, which is beneficial for the piglets.

Application

Nathalie, who works in the farrowing section, is very happy with the product. It is much better for the pigs than wood shavings that we used before. We apply FiberCombi in the piglets lying area just before farrowing.

Customer service

The cooperation with Destek ApS started in the summer of 2015 with the product FiberCombi. We can tell that we always get a good service. Our employees went to a fair, where our regular consultant from Destek ApS gave a really good orientation of the different products.

Regards
Jens Otto Pedersen
